nas added fuel to the flames. Ohio's population and prosperity have their roots deep down in two strong strains of Kevolutionary stock—from Virginia and from New England. Organizations of Sons of the Kevolution are up in arms in angry protest at Mr. baker's defamatory utterances. What adds to the indignation is that a mouthpiece of the Administration should endeavor to palliate the unprotested murders of hundreds of American women in Mexico by the piea that soldiers of the American revolution were just such scoundrels as these.

Angry letters and telegrams of protest are already being sent in great numbers to congressmen and to the heads of the Administration. The Cincinnati Sons of the Revolution have taken formal action Other.

FACTS VERSUS FICTION

Are YOU letting the Democratic campaign leaders do YOUR

Or have YOU a mind of YOUR own?

Does any REASONING man believe the present over-stimulation of American industries is due to anything OTHER THAN the European war?

Before the War **Under Democratic Tariff Regulations** Remember

Balance in treasury, June

Thousands of Ohio men were jobless. Hundreds of factories were closed. Thousands of families in want. Cities issued special relief bonds. Soup kitchens and bread lines established. Relief commissions overtaxed.

A vote for the Republican candidates is insurance against a return to this condition when the toxic effect of the war is eliminated from the veins of American industries.

The Democratic fiction writers and the talented talking machines, wound up at Washington, are monotonously repeating, "He kept us out of war," "Eight-hour day" and referring to the president as

What war did Mr. Wilson keep us out of? Who gets the 8-hour day?

In an address to Congress the president himself referred to the European war as "a war with which we have nothing to do, a war whose causes do not touch us." So how could he keep us out of a war with which we have nothing to do and whose causes do not touch us? Surely the Democrats do not mean that Mr. Wilson kept us out of the European war.

According to war department records HE DID NOT. During the term of President Wilson more Americans have been killed by Mexicans and more American property destroyed by Mexicans than were killed or destroyed by Spaniards during the Spanish-American war. So if Mr. Wilson did not keep us out of war with Europe or out of conflict with Mexico, what war did he keep us out of?

President Lee, of the Brotherhood of Railway Trainmen, has just admitted that the people might have been misled in the matter of the Adamson eight-hour law, which he admits is not an eight-hour

law, but LEGISLATION TO GIVE THE RAILROAD MEN HIGHER WAGES. It is simply a matter of fact versus fiction. Your ballot will show your choice Elect the Republican Ticket and Insure Permanent Prosperity.
